## PART 1: INSTRUCTOR INFORMATION, COURSE DESCRIPTION AND TEACHING METHODS

### 1.1 General information

- Full course title: [General Management]
- Type of course: [Elective]
- Level of course [B.A.]
- Year of study: [3<sup>rd</sup>]
- Number of ECTS credits allocated: [3]
- Name of lecturer(s) and office hours: Anton Marushev, office hours on demand, marushev@mail.ru

**Instructor information:** Anton graduated from MGIMO in 2007 and received Master of Business Administration degree from INSEAD Business School in 2014. He spent 7 years in different marketing and sales roles at Procter&Gamble in Russia and Switzerland and 4 years as management consultant at McKinsey&Company in Europe and Middle East. Over the past 11 years Anton has obtained deep practical knowledge of international management aspects at different levels of organizations, advised leading international companies on multiple management topics

### 1.2 Course aims and learning outcomes

This course seeks to develop a practical skillset that students will be able to apply in their future careers in management or public administration. This course combines fundamental management theory with immediate application of this theory in case-studies and role plays

#### Learning outcomes:

By the end of the course students should be able to:

- Gain understanding of key terms, theories and main concepts in the field of management and public governance
- Understand and apply main principles of process and project management
- Make effective managerial decisions and avoid cognitive biases
- Understand and apply basic techniques for effective time management
- Become better people managers with ability to lead, motivate and develop others
- Understand managerial ethics and corporate responsibility

### 1.3 Course requirements and grading plan

#### Course requirements

Students are required to attend not less than 80% of classes and to be active in class discussions. Reading of the assigned materials is beneficial, but not compulsory provided student has participated in the class. The course is designed to be as practical as possible, hence we will do a lot of case studies, exercises and role-plays in class. These in-class activities will not be graded, as our objective would be to learn and test different methods in the safe environment of the classroom. The only elements that would be graded are listed below:

#### Grading plan

Element	Weight	Description
Class participation	30%	Attendance, participation in class discussions, usage of course concepts and techniques
Quiz	20%	Written evaluation that tests student's understanding of process management topic
Mid-term evaluation	25%	Written quiz that tests student's understanding of project and people management topics
Final evaluation	25%	Final evaluation that tests the general understanding of main management concepts discussed throughout the course

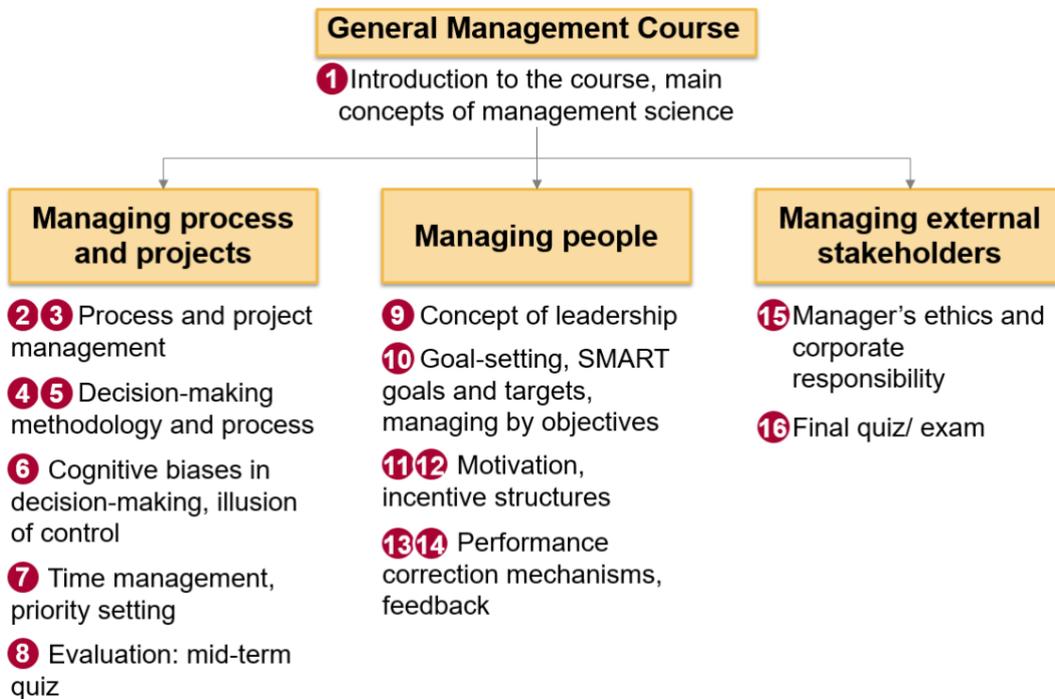

## PART 2. COURSE CONTENT

### 2.1 Types of work

Types of work	Academic hours
<b>Total</b>	<b>108</b>
<b>Total for lectures, seminars</b>	<b>34</b>
Lectures	16
Seminars	18
Written tests and/or exam

16 Final evaluation	<ul style="list-style-type: none"> <li>– Full course review</li> <li>– Final evaluation</li> </ul>	Selected course materials (will be sent over email)

#### 2.4. Exam timing

- Fall semester final evaluation – end of December

### PART 3. FINAL REMARKS

- Plagiarism is considered a severe violation and an indication of incompetence in the course. Plagiarism is understood as making of one’s text using compilation method for other people’s publications, even connected with own phrases and sentences. Collective performance of individual tasks is unacceptable. Proven plagiarism will receive an F-mark regardless of the fulfillment of all other requirements.
- Assignments are to be handed in on the due date. Late submissions will not be accepted
- Dates for quizzes and other evaluations are announced beforehand, no additional dates for quizzes will be provided in case a student misses it
- Students are asked to keep a copy of all work submitted for evaluation
